

A high-speed, close-up photograph of water splashing, creating numerous bubbles and intricate patterns of liquid. The water is clear and bright, with some areas appearing darker due to shadows and reflections. The overall composition is dynamic and energetic, filling the entire frame.

**Century** ALUMINUM

**natur-AL**™

Low-Carbon Aluminum  
Made in Iceland

## Low-Carbon Aluminum for Premium Products

With Natur-Al™ our customers can significantly reduce the carbon footprint of their premium products.

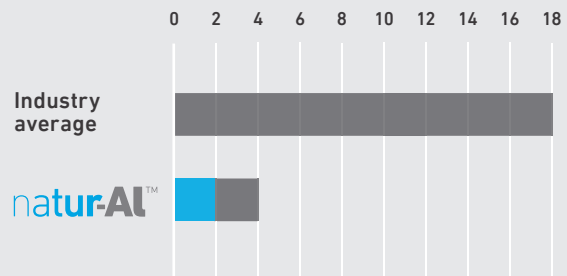

Natur-Al™ aluminum has direct CO<sub>2</sub> levels below two tonnes CO<sub>2</sub> per tonne of aluminium – **one of the lowest CO<sub>2</sub> footprints in the world for aluminium and less than one-quarter of the industry average.**

Natur-Al™ products are made with energy from 100% renewable sources at our Norðurál aluminum plant in Iceland. Norðurál is certified by the Aluminium Stewardship Initiative (ASI) for responsible production, sourcing and stewardship of aluminum. All CO<sub>2</sub> emissions are verified by independent third parties, facilitating life-cycle assessments for our customers.

### The natur-AL™ Advantage:

- Direct and indirect CO<sub>2</sub> emissions less than one-quarter of the industry average
- Traceability from mine to metal
- Data available for use in life cycle analysis of finished products
- Third party verification of CO<sub>2</sub> emissions
- ASI-Certified for responsible production, sourcing and stewardship of aluminum

#### Direct and indirect CO<sub>2</sub> emissions

Natur-Al™ ZERO is our **fully offset, carbon-neutral aluminum**. We encourage and assist our customers to go all the way to carbon-neutrality with contributions to reforestation or wetland reclamation projects.

### natur-AL™ Products:

Natur-Al™ comes in standard ingots (20-22 kg) in primary grades P0610, P1015, P1020 and primary foundry alloy grade A356. All products are made in Iceland in full compliance with EEU and local laws and regulations. All emissions that may adversely impact the environment are monitored by independent parties.
